## Boosting Biotech Internship

### Laboratory Technician

Do you want to work in a critical role with a rapidly growing company? Do you want to make a real impact while developing your own abilities? Are you able to work on a team, demonstrate a balanced skill set and overcome obstacles while having fun? Then welcome to Blue Sky Analytical Labs! We are building a company that gives our staff room to learn, grow, and create an incredible experience for employees and customers alike. Our staff are our strongest asset, we created a work environment that employees can thrive in. If you succeed, we succeed.

#### About the Company:

Blue Sky Labs is a private lab testing company operating in a strategic alliance with the University of Lethbridge. We are in the newly constructed, 413,000 square-foot Science Commons building. We operate in this state-of-the-art facility using cutting edge equipment, scientific methods, and minds. We focus on providing exceptional laboratory analytics for a variety of industrial, agricultural, and academic clients in Southern Alberta and beyond.

#### Mission:

Blue Sky Labs is focused on providing regional solutions with fast, reliable, and local laboratory testing. We believe that southern Alberta will benefit from a first-class analytical laboratory, dedicated to the needs of the municipalities and businesses that make up our region.

For more information, please reach out to Ross Tisdale at [ross@blueskyanalytics.ca](mailto:ross@blueskyanalytics.ca)

We thank all applicants, however, only candidates selected for an interview will be contacted.

Resumes must be sent by **December 10, 2021** to: Ross Tisdale at [blueskylabs@outlook.com](mailto:blueskylabs@outlook.com)
