

Established in 2017, Edmonton Global is a not-for-profit organization focused on radically growing and transforming the Edmonton Metropolitan Region economy. Edmonton Global works in collaboration with our 15 regional municipalities to attract foreign direct investments to diversify the Edmonton Metropolitan Region economy by combining economic strengths and assets, and leveraging partnerships and competitive advantage in our key sectors:

- Health and life sciences
- Manufacturing and advanced manufacturing
- Food and agriculture
- Energy and clean technology
- Technology and innovation

BUSINESS OBJECTIVES

Edmonton Global's primary objective is to attract investment to the Edmonton Metropolitan Region. Our target sectors include pharmaceutical manufacturing, pharmaceutical research and development, and applications of artificial intelligence to health and life sciences.
