

Kimberly Girling

PhD Candidate

Director, Corporate Relations, Student Biotech Network (SBN)

Kimberly Girling is currently completing her PhD in Neuroscience at the Brain Research Centre at UBC. Her research is focused on developing novel, preventative therapeutics for Huntington's Disease. Kimberly is very excited to be joining the Student Biotechnology Network and is proud to be a part of an organization with such a high standard of excellence. She hopes to continue this tradition with a year full of first-rate events and opportunities.

In addition to working with the SBN, Kimberly sits on the advisory board for the Neglected Global Disease Initiative at UBC, an organization that works to increase research, awareness and funding for neglected diseases, and works towards medical advances for neglected communities worldwide. Kimberly is a student member of the UBC Chapter of Universities Allied for Essential Medicines, and is a member of the Society for Neuroscience. In her spare time, Kimberly enjoys playing guitar, snowboarding, and photography.
