

Edmonton International Airport is a self-funded, not-for-profit corporation whose mandate is to drive economic prosperity for the Edmonton Metropolitan Region. Edmonton Airports manages Edmonton International Airport (EIA), and owns and operates Villeneuve Airport (VA). EIA is Canada's fifth-busiest airport by passenger traffic and the largest major Canadian airport by land area. EIA offers non-stop connections to destinations across Canada, the U.S., Mexico, the Caribbean, and Europe. EIA is a major economic driver and has attracted over \$1.3 billion in investment to our property over the last few years. EIA's Airport City Sustainability Campus is a living lab for accelerating the development, testing, implementation, and commercialization of technology. EIA's Airport City Sustainability Campus propels new jobs, tourism, and economic diversification – and creates a destination in and around EIA, featuring entertainment, e-commerce, retail, hospitality, cargo/logistics, bio-pharma, light manufacturing and many other industries.

Your cargo: any size, on-time and anywhere

Our full-service cargo operation increases in volume every year. Agriculture, energy and industrial sectors contribute to our local economy, making EIA an important centre for shipping products worldwide.

We have invested in cargo infrastructure to meet the growing demand for reliable and efficient cargo services. We provide dedicated cargo air service and cargo handling services and facilities including more than more than 40 freight forwarders and customs brokers.

Cargo Care, your fresh and safe gateway

At EIA, we offer a full Cargo Care Solution that offers unparalleled service to support multimodal shipping for your perishable and pharma goods. EIA is the [first airport cargo community in Canada to receive the IATA Center of Excellence for Independent Validators \(CEIV\) in Pharmaceutical Logistics](#).

The Fresh Cargo Centre offers 5,000 square feet of refrigerated warehouse space with direct airside access. Safety is key, and temperature sensitive storage, including a multi temperature CEIV Pharma certified freezer and an ultra cold freezer unit, ensures your pharma is stored and delivered safely and in perfect condition.

We connect customers to create strategic partnerships and provide customized solutions through our trusted industry cargo partners. Our goal is to provide expert advice and technical support on the ground, to ensure the successful handling and delivery for every shipment. We are technology focused and forward thinking to meet your business needs.
